

Thanksgiving #2a

Marcus invited his friends Drew and Jenny to his house for Thanksgiving dinner. Use cubes to help you measure each distance.

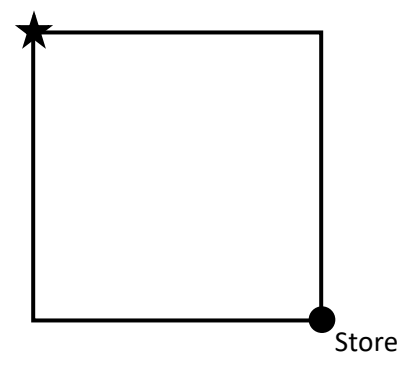

1. Jenny drives to Marcus's house to help with dinner. She stops at the store on the way there. About how far does Jenny drive altogether?

2. Drew walks from his house to the bus stop, and then rides the bus to meet Marcus and Jenny. How far does he go altogether? How far did he walk?

3. Marcus forgot to get something for the dinner. He drives to the store to get what he needs. How far did Marcus drive to the store and back?

Your turn: On the back of the paper, draw a picture of Marcus, Jenny, and Drew's dinner.

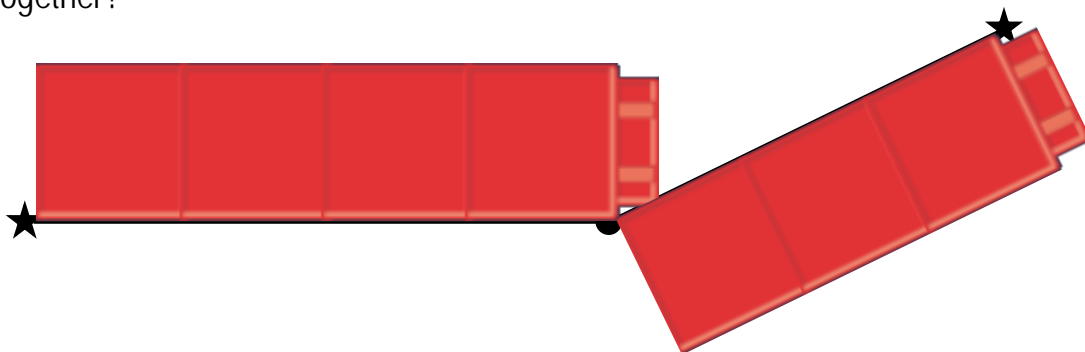

Thanksgiving #2a **ANSWERS**

Marcus invited his friends Drew and Jenny to his house for Thanksgiving dinner. Use cubes to help you measure each distance.

1. Jenny drives to Marcus's house to help with dinner. She stops at the store on the way there. About how far does Jenny drive altogether?

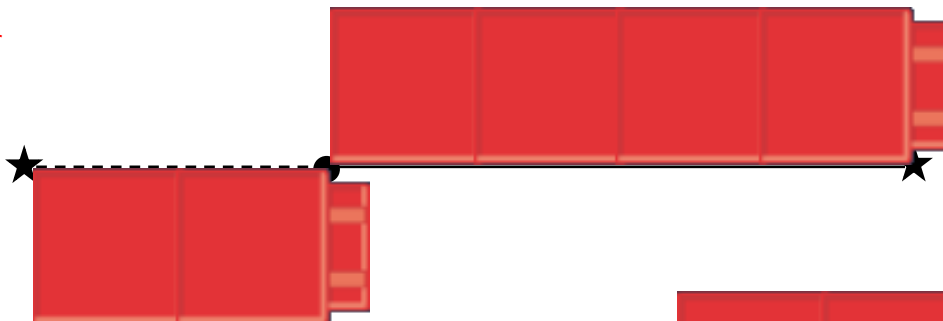

7 miles

2. Drew walks from his house to the bus stop, and then rides the bus to meet Marcus and Jenny. How far does he go altogether? How far did he walk?

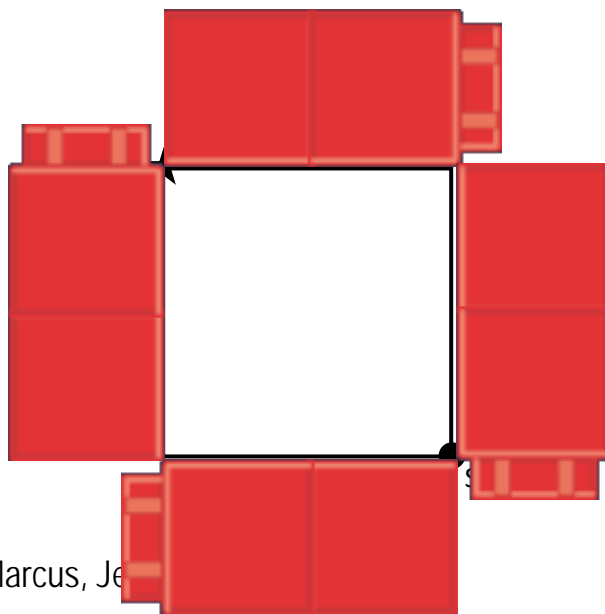

6 miles altogether

He walks 2 miles.

3. Marcus forgot to get something for the dinner. He drives to the store to get what he needs. How far did Marcus drive to the store and back?

8 miles altogether

Your turn: On the back of the paper, draw a picture of Marcus, Jenny, and Drew.
