

# Checkerz

$\times 8$

$\times \frac{1}{2}$

**Materials:** • 1 die • 2 sets of tokens (different color for each player)

## How to Play:

1. Players toss a die. Higher number goes first.
2. Toss a die and multiply the toss by 8. Say the product out loud.
3. Find one-half of the product. Say the solution out loud.
4. Place a token on the solution anywhere on the chart. If you can't place a token, it's the next player's turn.
5. The first player to get 3 in a row vertically or horizontally wins the round.

## Example:

Toss a 3.  
 $3 \times 8 = 24$   
 $24 \times \frac{1}{2} = 12$   
Place a token on 12.

4	24	8	20	12	20	16
12		16		4		8
24	8	12	4	20	16	4
16		24		8		20
8	12	20	24	16	4	24
4		16		20		8
20	16	4	12	24	8	12
