## Fifty Times

Throw a die fifty times and tally the results of each throw in the table. Add the tallies to get a total for each number.

| Number | Tally | Total |
| :---: | :---: | :---: |
| 1 |  |  |
| 2 |  |  |
| 3 |  |  |
| 4 |  |  |
| 5 |  |  |
| 6 |  |  |

Check that all the totals add up to 50.

Which number was thrown most frequently? $\qquad$
Which number was thrown least frequently? $\qquad$
Repeat the activity, but this time throw the die 100 times and then 150 times.
Record the results below and compare with your totals for fifty throws.

Frequency

| Number | 50 | 100 | 150 |
| :---: | :---: | :---: | :---: |
| 1 |  |  |  |
| 2 |  |  |  |
| 3 |  |  |  |
| 4 |  |  |  |
| 5 |  |  |  |
| 6 |  |  |  |
